QUALITY & EXCELLENCE, WHATEVER IT TAKES.

THE EDMO WAY

For 49 years, EDMO Distributors has developed robust relationships with the aviation industry's most trusted brands, and now represents more than 200 quality manufacturers serving commercial, corporate, military, and general aviation customers in the fixed-wing and rotor markets. To accommodate such a wide customer base, EDMO carries a comprehensive range of products including aircraft electronics, installation and bench supplies, wire and cable, tooling, test equipment, tactical communication solutions, pilot supplies, and ground support equipment.

EDMO's commitment to providing the best service and largest selection possible has made it a company that customers count on and trust. For that reason, EDMO maintains an ISO 9001/AS9120 registered quality control system. More than ever, EDMO has what you need when you need it. An expansion to Nashville, Tennessee means that most of our U.S. customers receive their orders in 1-2 days with ground shipping. The company will always stand by its motto, "Quality and Excellence, Whatever it Takes". That's the EDMO way!

MORE THAN JUST PRODUCTS

EDMO's customer service doesn't stop with big selection and quick-turn-around times. We strive to be a one-stop-shop for our clientele by providing valuable in-house services that save both time and money. These services include custom wire and cable services (both laser wire marking and cutting), ELT and PLB programming, and custom legend design. Call one of our friendly sales representatives today to learn more about the customized solutions tailored to fit your needs.
