

VIAVI IFR4000 Nav/Comm Flight Line Test Set Service Transition to Best Effort Repair

4 May 2026

The IFR4000 equipped aircraft maintenance technicians with the most portable NAV/COMM ramp test set on the market for 20+ years. The IFR4000 test set End of Manufacturing was announced in June 2023, two years after having been replaced in 2021 by the VIAVI [AVX-10K Communication, Navigation and Surveillance Flight Line Test Set](#) for all variations of the [IFR4000](#).

The AVX-10K is a comprehensive flight line test solution providing today's Avionics Technician with an easy-to-use instrument for many maintenance needs. From a quick airborne system auto-test to an in-depth troubleshooting tool, testing can be performed conveniently around the aircraft or in the cockpit from the touchscreen display or using your mobile device. Easy set-up, quick testing and reporting transferable via USB, Ethernet and wireless all done from a modern user interface or the VIAVI Solutions Mobile Tech App.

Effective June 1, 2026, VIAVI service centers will transition to Best Effort policy for Repair and Calibration of the IFR4000.

Why the change?

There are IFR4000 component and PCBA shortages due to obsolescence and parts availability.

What does this mean for IFR4000 owners?

Beginning in June 2026, IFR4000 hardware repairs will be conducted on a Best Effort basis. Service Centers will evaluate hardware failures to determine if economical repair can be completed. VIAVI will continue to perform calibration services for the foreseeable future.

What if my equipment cannot be repaired?

IFR4000 units deemed Beyond Economical Repair will be returned to the customer as is unless other arrangements are made.

Thank you for your continued support of VIAVI Avionics Test products!

At VIAVI, we value the relationship we have built with you over the years and want to provide the support needed for a seamless transition to the future of avionics testing with the AVX-10K. Should you have any questions or require further information, please do not hesitate to contact our customer support team at 1-800-835-2350 (choose option 1 and then option 5) or email. We will be more than happy to assist you in any way we can.
